

**POLICE  
SCOTLAND**  
Keeping people safe

## December 2020

### Contact Information

**Welcome to the Ward 20 monthly report from your local officers PC 180 Chris Stecka and PC 333 Robert Wallace.**

**Below is the local contact email address for your local community team. This is not for reporting a crime but if you feel you require to contact your local community officer then the email address is the best way to do so.**

**Email – [EastNeukLandwardCPT@scotland.pnn.police.uk](mailto:EastNeukLandwardCPT@scotland.pnn.police.uk)**

**If you do not have access to the internet then you can call 101 and the call handler can send an email on your behalf.**

### Local Initiatives

Throughout the course of December PC's Stecka and Wallace along with the support of other officers have continued to carry out proactive work up and down the coast including the development of drug misuse intelligence and speed sites.

Throughout the course of the last 18 months officers have carried out 120-140 speed sites, issued over 200 warnings issued, 40 FPN's issued and 10 drivers reported to the PF.

In respect of the most recent changes to Covid-19 Guidelines officers would like to remind everyone to be as safe as possible in the current climate and we aim to do what we can to support the local communities.

If there is any local initiatives you feel may benefit from some form of input from Police please let us know.

### Community Speedwatch

The Speedwatch initiative has been on hold due to Covid-19 however officers can confirm that all the volunteers that started the process have been vetted and are now able to work alongside Police Scotland for the next three years.

Given the current restrictions the final stage of training has not been carried out however with the change from BST to GMT in the coming weeks CSW will not be able to go ahead until Spring 2021.

We will continue to monitor the Governments guidelines and as soon as training can be carried out in a safe and effective manner this will be done so.

## OFFICIAL

### **Targeted Operations**

#### **Operation Lite 2020**

The above is a targeted operation has bene put in place in light of the most recent changes to Covid-19 Guidelines and has been designed to try and provide a high visibility presence on the main arterial routes into and out of the Kingdom of Fife.

As you will all be aware unless it is essential or and emergency then travel to and from other local authority areas has been prohibited.

In light of the recent media release from Police Scotland as ever we are to use the four E's, Engage, Explain, Encourage and Enforce in respect of potential Covid-19 Breaches taking each incident in its own merit.

#### **Corona Virus Legislation and Guidance**

The Scottish Government announced on 19<sup>th</sup> December that it would significantly tighten Covid restrictions over the festive period and that the country will move to Covid protection Level 4 from 26<sup>th</sup> December.

Up to date guidance and legislation can be found on the Scottish Government website.

St Andrews Police Station enquiry office will reopen from 4<sup>th</sup> January 2021 during weekday office hours. Social distancing measures are in place at the station for members of the public who do attend.

#### **Darker Nights – Cyclists and Runners**

There are a host of issues that can arise with the darker nights.

We urge cyclists / runners to wear reflective clothing and for cyclists to ensure they have working lights on their bicycles so they can be seen by other road users and pedestrians.

Community officers have, in the past few weeks stopped several cyclists who have been cycling in the dark without lights, or who did have them fitted, but forgot to switch them on!

#### **Darker Nights – Drivers**

Data from the Royal Society for the Prevention of Accidents (RoSPA) indicates each year, when the clocks go back, there's a rise in the number of vulnerable road users killed or seriously injured.

To help drivers and others to stay safe, many associations, including RAC and AA have a host of online guides with advice on driving in the dark.

- [Use your lights appropriately](#)
- [Don't stare at oncoming vehicles](#)
- [Keep windows clean](#)
- [Watch out for children, cyclists and animals](#)

Within these calls 8 crimes were recorded.

### **Cellardyke**

14 calls to the police, consisting of various types including road traffic matter, concern for persons and assist members of the public.  
Within these 2 crime was recorded

### **Pittenweem**

Officers are aware of concerns with speeding motorists from the A917 at its junction with the B942 outside Pittenweem, the road for the Waterless Bridge. We are reviewing the area for suitability of speed site placement however at this moment in time it has been risk assessed as not suitable for Police Officers to use the UNIPAR Speed Detection device on the roads.

There are many factors that contribute to this risk assessment and it may change in due course, we appreciate the concerns raised in respect of accidents at this area in recent months but as a Police Service we need to ensure the safety of both officers carrying out the speed site and the public using the road.

If officers cannot suitably stop vehicles in the time frame from detection then there is an inherent risk to that driver, the Police Officers and any other person using the road should the vehicle requiring to be stopped take any sudden and abrupt action.

Should Fife Council be able to carry out a Speed Survey using the appropriate equipment being placed on the road for a period of time, Police will review the data from this and formulate an appropriate plan.

16 calls to the police, consisting of various types including assist members of the public, road traffic matters, fire, 999 calls and others.
