

1. Existing Local Stone Wall Example

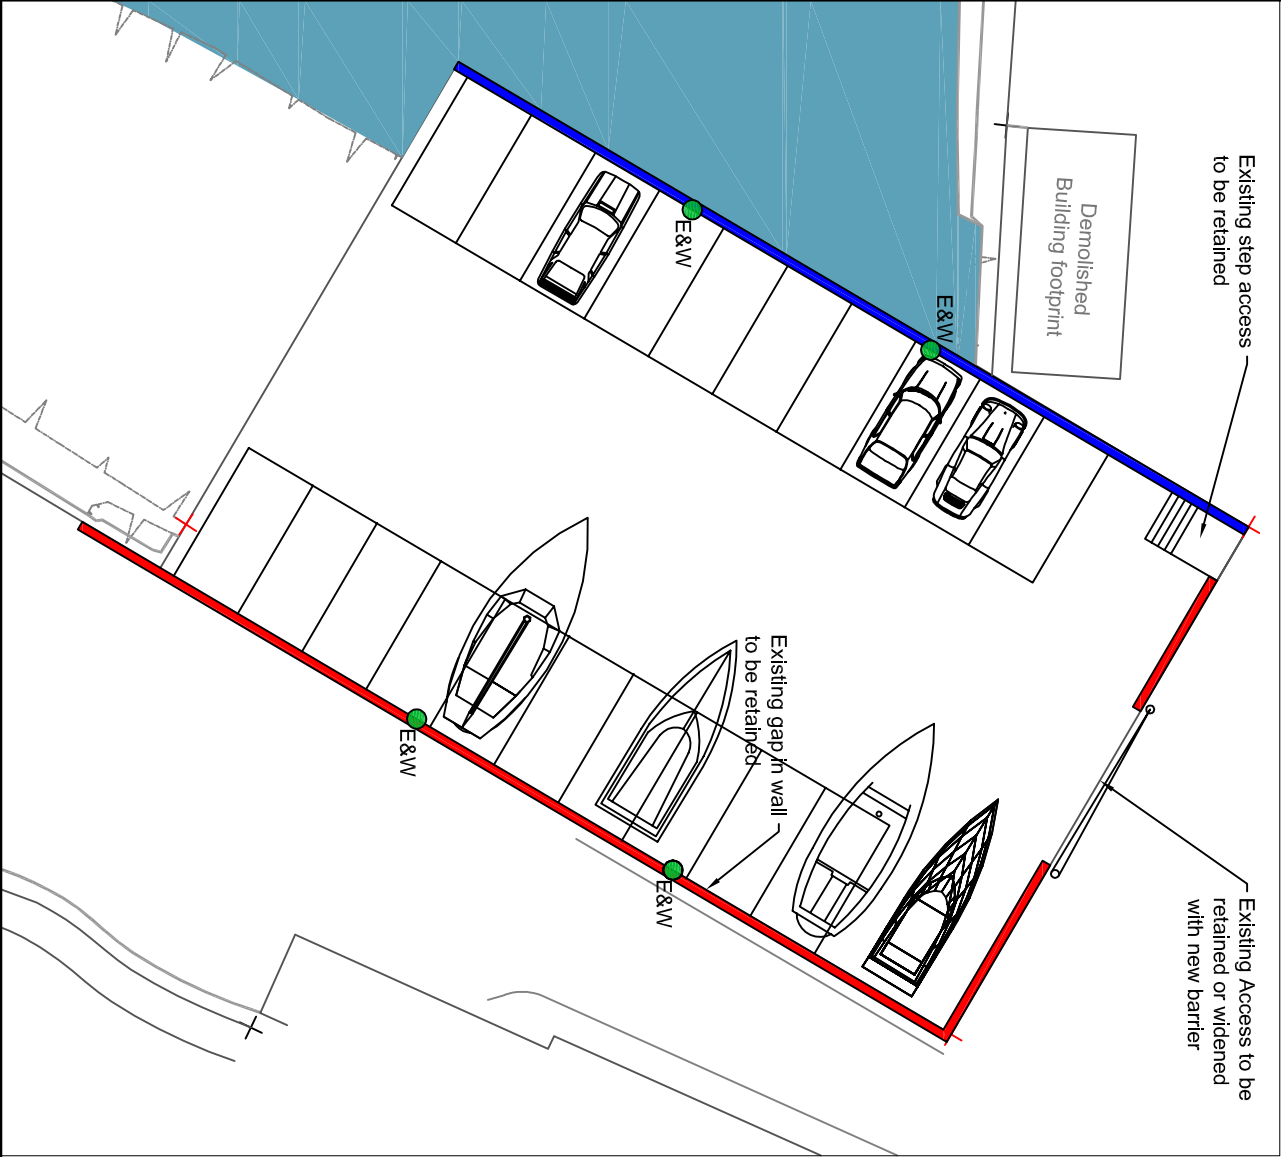

2. Conservation Area and Local Context to be reflected aesthetically

3. Example of Natural Stone Coping shape for use on all walls within The East Slip area.

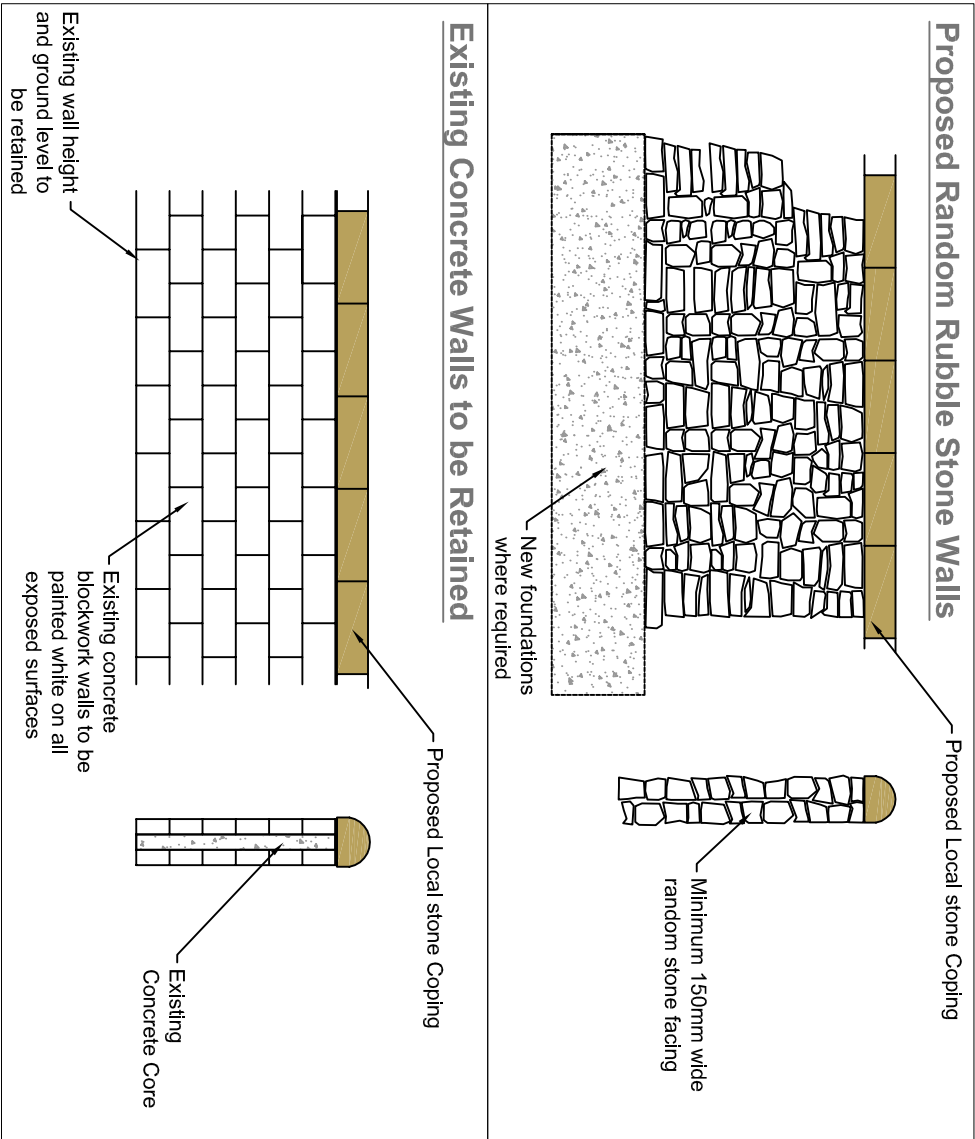

Legend

- Existing Concrete Walls to be Retained**
Existing concrete blockwork wall to be retained, painted and new natural stone coping to be added.
- Proposed Random Rubble Stone Walls**
Existing concrete and brick walls to be removed and reconstructed with local stone to tie into existing buildings and local context.
- Electric & Fresh Water Supplies**
Provision of 4 combined electric and fresh water supply points.

Key Aspirations and Functions

- Refurbish / replace the external walls and boundary to the old warehouse platform.
- Use local materials to tie into the conservation area and reflect the local building character
- Provide security and protection for boat storage
